Certificate of Conformance Application

In order for your application to be approved, the Division of Inspections and Investigations will be conducting a mandatory inspection of your property.

For your benefit, the following list has been compiled to indicate some of the items we will be looking at during the inspection. This list is a general listing. The inspection will not be limited simply to these items. There also may be additional requirements, depending upon your use group.

- Fire Extinguishers are valid with current tags and hung properly.
- Exit signs, where applicable, are operative.
- Exits, aisles and doors are adequately accessible.
- Fire protection systems (sprinklers, overhead suppression systems, fire alarm systems, heat and smoke detection systems, etc.) are current and operative.
- General housekeeping is good (including the storage of combustibles and flammables). Common sense eliminates many of these hazards.

Should you have any questions, please feel free to contact the Division of Inspections and Investigations at 330-492-4089 between 8am and 4pm Monday through Friday.

Thank you in advance for your cooperation.

\$55.00 permit fee is due within 7 days of final inspection
